# With Letsignit, get rid of email signature issues

Letsignit Platform™ for administrators

Letsignit App™ for users

Everything is centralized!

Letsignit Platform™ allows you to create personalized signatures and relay communication banners in just a few clicks. They are distributed to collaborators who are imported or synchronized from the Azure AD.

Everything is automatic!

With Letsignit App™ signatures are integrated into every new email in Outlook. Letsignit API ™ helps cover employees who use OWA.

Features

Template customization

Automatically insert/update email signatures in Outlook and OWA

Azure AD synchronization

Office 365 API Push

User Management

Role Management

Image Hosting

Language setting of the interface: FR and EN

Access to Letsignit Designer ™

Marketing banners insertion

Campaign scheduling

Trackable clicks

Usage statistics

FAQs, videos and the online chat

And much more…
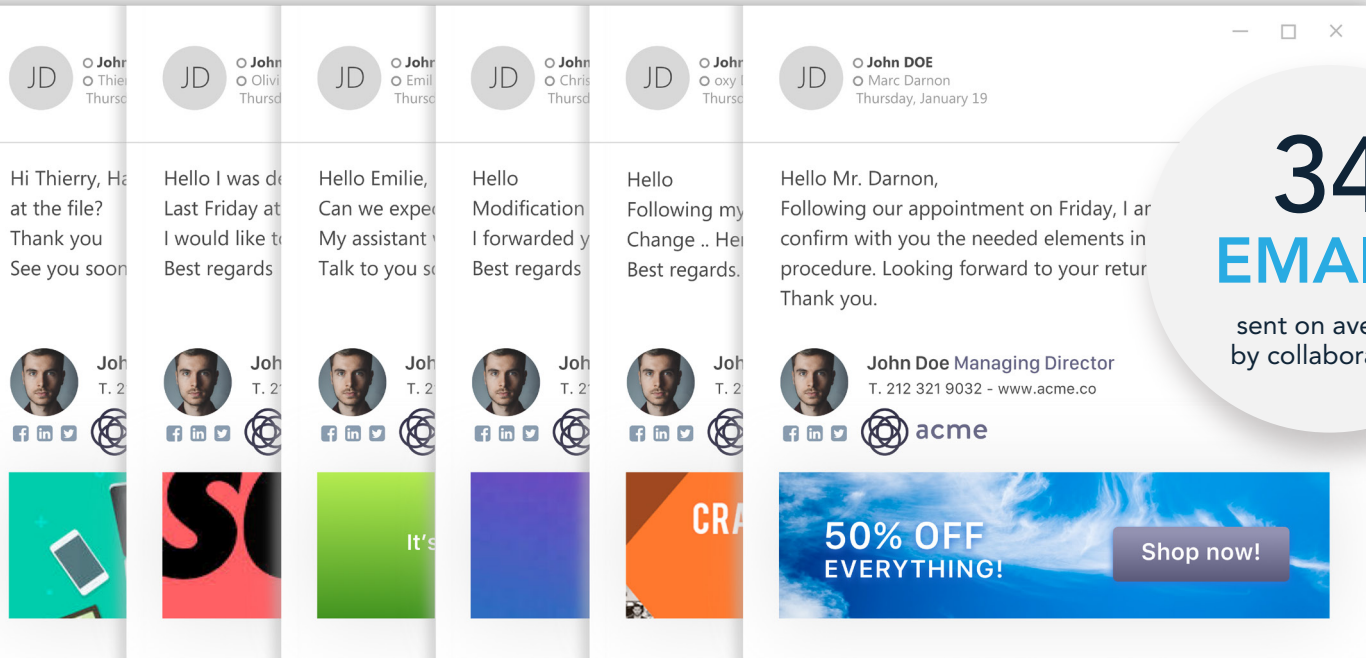

Office 365

Microsoft **Partner** | Silver Cloud Platform

We Make it EASY

Easy to DESIGN, easy to USE, easy to DEPLOY.
