Experience Omnia Intranet

The right intranet simplifies collaboration and encourages engagement and participation among those who use it. Precio Fishbone presents Omnia Intranet. A unique intranet in SharePoint and Office 365 with innovative functions and new opportunities for users, editors and administrators. Omnia Intranet shows the way to a well-used intranet and a good user experience.

A UNIQUE INTRANET …

An intranet based on Omnia Intranet creates value both for individual users and organisations. All the needed information, news, tools and support are gathered here for efficiently carrying out everyday work. This is also a place for collaboration and communication, with shared social interfaces that bring people together across geographical and organisational boundaries.
Omnia Intranet stands for solutions that make a difference in your operations.

… BUILT ON EXPERIENCE.

Precio Fishbone has delivered intranets to more than 800 organisations in the past 15 years. Omnia Intranet is built on well-proven processes, with our experience and user experience as the base. We know how a cost-effective intranet works and the ways in which it can produce positive effects in your organisation. Omnia Intranet has been created with this knowledge.

Discover Omnia Intranet

We are also aware of the expectations for a good intranet and which functions are usually included in standard solutions. There is often a major disconnect in this respect. The user experience seldom matches up with expectations. Omnia Intranet is the solution. With our product we give you all the standard functions, along with new and refined functionality. But also unique capabilities for future adaptation and development, backed by our support as your needs evolve.

SECURE AND EFFICIENCY …

Omnia Intranet is an intranet solution with built-in efficiency and stability. There are smart functions, clear overviews and modern interfaces for easily and efficiently handling content and communications.

Precio Fishbone provides you with new opportunities for smart, long-term maintenance of a professional and secure solution of high quality.

… MAKES WORK CLEAR AND SIMPLE.

In an enterprise's internal communications, simplicity and clarity are always appreciated. This is why the intranet and its content must be easy to handle with a clear structure. Omnia Intranet makes it easy to create, publish and maintain information. There are ready-to-use concepts and templates for webpages, collaborative interfaces, news, banners and important messages, for example. Moreover, it is easy to maintain the intranet in its entirety, including the navigation structure.

(For a detailed demonstration of content, you are welcome to our webinars and seminars, which we hold on a regular basis.)

EDITOR
