

DEMYSTIFYING EMAIL ARCHIVING

WHAT EMAIL ARCHIVING IS

Email archiving is a systematic approach to preserving and protecting the data contained in email messages so that the content in the messages can be stored and indexed for future retrieval purposes, providing a unified compliance framework.

HOW EMAIL ARCHIVING WORKS

You license/white label an email archiving solution

Employee emails are pulled from your server

Each email is encrypted using a unique key

Files are stored in the cloud or journaled

Archived emails can be searched/viewed via a dashboard

EMAIL ARCHIVING

VS.

EMAIL BACKUP

Email archiving is designed to save all data for an extended period of time and index it for easy search and retrieval as a form of record-keeping.

Backup is designed to restore and index a snapshot of data at a certain point in time, most for emergency retrieval purposes.
