

# Integrate Office 365 documents into your digital workflow to enjoy all the superpowers of business automation

No coding skills are required on your side as this integration is based on the simple logic of automating everyday business operations

## Close deals instantly

Initiate e-signing invitations with a few clicks. Once a new document or new contact has been added in Outlook, an e-signing invitation is generated automatically.

## Spend less time editing

Create online documents in which Office text tags are automatically converted into SignNow fillable fields.

## Keep up with your schedule

Integration with the Calendar allows for syncing document generation and editing with the corresponding events in it.

## Boost your approval rates

Add e-signing tools directly to your email account for greater efficiency with your approval processes.
