

PROTECTION FOR ALL YOUR DEVICES AGAINST CYBER THREATS

F-Secure Protection Service for Business

TOMORROW'S SECURITY, DELIVERED TODAY

Cyber security never stops. New attackers, tactics, and threats emerge every day. Hackers will never stop discovering and deploying new ways to breach your defenses.

It means you can't afford to slow down either – you don't want to be an easy target. This is what makes cyber security so endlessly interesting and ruthlessly challenging all at once.

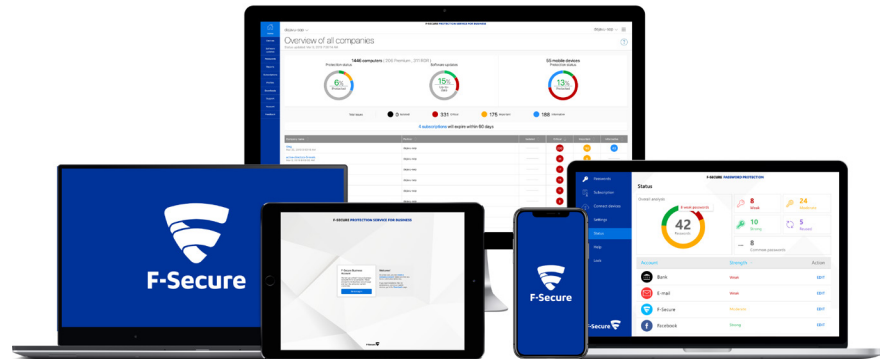

We are driven by that challenge.

F-Secure works tirelessly to stay one step ahead of the opposition. We know cyber security – and we are relentless.

Don't just take our word for it. In recognition of our success, we have won the prestigious 'Best Protection' award from AV-Test multiple years in a row. It is just one of the many proof points demonstrating that we deliver the best possible security now and in the future.

CONFIDENCE THROUGH SECURITY

Protection Service for Business is the best, most comprehensive endpoint protection package on the market, designed from the ground up to solve your challenging business security needs.

It protects all your endpoints, from Windows and Mac to mobile devices, against threats like ransomware, data breaches and 0-day attacks, without requiring significant maintenance or management overhead.

Protection Service for Business is the only unified multi-endpoint security solution that comes with integrated Patch Management.

We are proven to provide superior and more consistent protection than our competitors, as verified by independent security experts. Thanks to our pioneering security technologies, such as real-time threat intelligence and advanced machine learning algorithms, we are always one step ahead of the attackers.

Computer Protection

**POWERFUL, LAYERED,
AWARD-WINNING SECURITY FOR
WINDOWS & MAC COMPUTERS.**

- AV-TEST Best Protection, 2010-2014, 2016 and 2018
 - Includes patch management for Windows computers
 - Uses advanced behavioral and heuristic analysis
 - Leverages artificial intelligence and machine learning
-

Mobile Protection

**PROTECT AGAINST MALWARE
AND DATA LOSS ON IOS AND
ANDROID MOBILE DEVICES.**

- Protects devices against malware and phishing
 - Prevents data loss via stolen devices and Wi-Fi snooping
 - Third-party MDM support available
-

Server Protection

**PROTECT YOUR MISSION-CRITICAL
COMMUNICATION, COLLABORATION
AND DATA STORAGE.**

- Next generation protection for servers
 - Advanced behavioral analysis and heuristic analysis
 - Fully integrated patch management
 - Remotely managed firewall
 - Application and device control
-

Management Portal

**DEPLOY, MANAGE, AND MONITOR
EVERYTHING THROUGH A SINGLE
CLOUD-BASED CONSOLE.**

- Integrated patch management
- No server hardware required
- Full integration readiness for third-party management tools

GET MORE. DO LESS.

Better protection

Get the best endpoint security solution on the market. Merging your endpoint security into one unified package nets you better, broader, and more cost-efficient protection.

“We were looking for a holistic and simple approach to endpoint security and patch management and F-Secure came out not only the most cost-effective, but had the best pre-sales experience by far...”

Andrew Williams, Infrastructure Engineer,
Myers Group

Easy set-up

Cloud-based management, scalable deployment, and automatic removal of old security software makes deployment painless. AV-Comparatives found our endpoint installation “no more complicated than installing iTunes.”

“It’s click and go! Easy to use and was pretty quick to install...”

Mark Short, Senior Technologist,
Howarth Litchfield

Less overhead

Save time and money with simplified security management, automatic client and database updates, and automated patch management.

“We’re really pleased with F-Secure’s PSB... the online management portal is great – I can see and manage everything in one place.”

Andrew Garton, Systems Administrator,
Spaldings UK

TECHNICAL SUPERIORITY

✓ No servers needed

No need to invest in server hardware, software, or maintenance – all you need to manage your endpoint security is a browser.

✓ No need for IT security expertise

Designed to work without IT security expertise for cost efficient administration, freeing security experts and administrators to focus on more challenging and valuable tasks.

✓ Seamless SIEM/RMM integration

Can be used as part of a larger security ecosystem, managed via a Security Information and Event Management (SIEM) solution or Remote Monitoring and Management (RMM).

✓ Superior Protection

As the only cyber security vendor to win the 'Best Protection' award from AV-Test six times since 2011, we can be trusted to deliver the best security, now and in the future.

✓ Pioneering Technologies

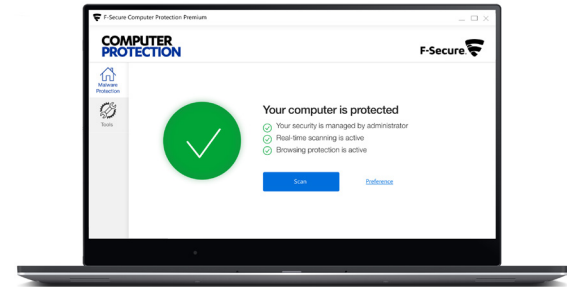

Build on multiple complementary layers of pioneering security technologies, including heuristic analysis, advanced machine learning, and real-time threat intelligence.

COMPUTER PROTECTION

Protection Service for Business provides powerful and modern security for your Mac* and Windows endpoints. With tools like Patch Management and real-time threat intelligence provided through the F-Secure Security Cloud, your security rises to a whole new level. F-Secure Computer Protection for Windows comes in two versions: Premium and Standard.

Supported OS: Windows 7, 8, 8.1, 10 | macOS 10.12, 10.13, 10.14

ADVANCED ANTI-MALWARE

Provides multi-engine detection capabilities. Offers better security than traditional solutions, without being reliant on a single technology.

DEEPCUARD

Offers proactive protection against 0-day malware and exploits through the use of heuristic and behavioral analysis.

DATAGUARD**

Provides additional detection capabilities against ransomware, and prevents destruction and tampering of data.

FIREWALL

F-Secure Firewall uses default Windows engine to execute firewall rules, based on extensive list of advanced rules created by our penetration testers.

SECURITY CLOUD

Our threat analysis and response systems provide our clients with real-time threat intelligence, allowing them to identify and respond to new threats as they emerge.

DEVICE CONTROL

Enables control over USB-based devices, preventing data loss and malware infections via them.

PATCH MANAGEMENT

Blocks up to 80% of attacks by automatically patching Windows and 3rd party software vulnerabilities. Includes options for exclusions and manual updates.

WEB PROTECTION

Prevents access to malicious and phishing sites, blocks malicious scripts and content and provides elevated protection for business critical web activity.

APPLICATION CONTROL**

Blocks execution of applications and scripts according to rules created by our penetration testers, or as defined by the admin.

*AVAILABLE FEATURES VARY BY OPERATING PLATFORM

**AVAILABLE IN COMPUTER PROTECTION PREMIUM

MOBILE PROTECTION

Protection Service for Business gives you an easy way to secure and control your mobile devices, both iOS and Android, wherever they are. You get everything you need in one package: Wi-Fi protection, browsing protection, support for mobile device management, and VPN.

Supported OS: iOS 9.x and later | Android 4.0.3 and later

MOBILE VPN

Automatically encrypts (VPN) all traffic between mobile devices and a selected F-Secure service node, allowing safe use of public Wi-Fi and mobile networks.

LIGHTWEIGHT CLIENT

Heavy security functions are in the cloud, ensuring minimal impact on mobile performance and battery life.

ULTRALIGHT ANTI-MALWARE

When the VPN is active, our service node protects the phones against malware and malicious content. Android APK packages are also scanned locally.

SECURITY CLOUD

Our threat analysis and response systems provide our clients with real-time threat intelligence, allowing them to identify and respond to new threats as they emerge.

WEB PROTECTION

Prevents users from accessing malicious and phishing websites, even before they are accessed.

FASTER BROWSING

Increases browsing speed by up to 30% by using traffic compression and blocking resource-intensive online tracking and advertising.

DEVICE STATUS

Provides detailed information about the devices, such as vulnerable OS versions and whether they are rooted or not.

EXTERNAL MDM

Supports deployment via third party MDM solutions, such as AirWatch, MobileIron, Intune and MaaS360.

SERVER PROTECTION

Protection Service for Business offers you the utmost security for your servers, while keeping them running at peak performance. Dedicated security components are available for Exchange, SharePoint, and Citrix servers.

Supported Platforms*: Microsoft Windows Server operating systems, Microsoft Windows Terminal Server, Microsoft Exchange Server, Microsoft SharePoint Server, Citrix Server, Linux Server

ADVANCED ANTI-MALWARE

Advanced anti-malware platform that uses multi-engine detection capabilities, offering vastly better security without being reliant on a single technology.

DEEPGUARD

Offers proactive protection against 0-day malware and exploits through the use of heuristic and behavioral analysis.

PATCH MANAGEMENT

Covers 2500+ server and 3rd party software, such as Apache, BizTalk, Microsoft SQL, Flash, Java, and many others.

SECURITY CLOUD

Our threat analysis and response systems provide our clients with real-time threat intelligence, allowing them to identify and respond to new threats as they emerge.

ADVANCED FIREWALL

Remotely managed Windows firewall hardened with our expert ruleset minimizes risks such as propagating ransomware.

EXCHANGE

Adds support for scanning message bodies and attachments for malicious content for inbound, outbound, and internal mail. Includes high-accuracy spam filtering.

SHAREPOINT

Multi-engine malware detection support for uploads and downloads.

CITRIX

Adds full security stack support for Citrix. Citrix Ready certified. Adds patch management support for published applications.

MANAGEMENT

Everything in **Protection Service for Business** is managed through a single cloud-based console. This includes deployment, management and monitoring of all endpoint security components, their profiles and integrated tools – saving you time in management and maintenance tasks.

Supported browsers: Latest Firefox, Safari, Edge, Explorer and Chrome.

CENTRALIZED MANAGEMENT

Consolidates the management of all endpoint components and integrated tools into one cloud-based management console.

HOSTED MANAGEMENT PORTAL

Does not require the installation of management servers or special software, works on any device. Fully HTML5 implemented.

EASY DEPLOYMENT

Endpoint security clients can be deployed by email, local installation, batch script, or a domain-based remote installation tool.

UNINSTALLATION TOOL

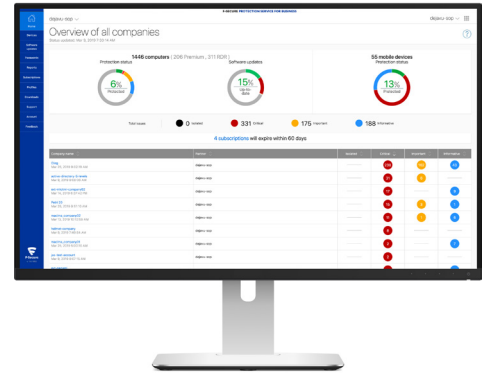

Conflicting security solutions are automatically removed during deployment of Windows clients, ensuring a smooth transition process.

POLICY SETTING

Security policies can be created, customized, and assigned individually or in groups by using labels.

AUTOMATIC UPDATES

Portal and clients automatically deploy product, security, and database updates, reducing maintenance work.

PATCH MANAGEMENT

3rd party software Patch Management can be set to work automatically on set dates, with the option to create exclusions or handle updates manually if required.

EXTENSIVE REPORTING

Detailed graphical reports, such as “most attacked clients” with threat details, vulnerability reports based on missing patches and more.

MANAGEMENT API

Supports integration via API to SIEM, RMM or any other 3rd party auditing, management or reporting tool.

BEST ENDPOINT PROTECTION

In cyber security, consistent results are a sure sign of success. You need solutions from an experienced vendor that you can trust to protect your business for many years, not just today.

We are proud to receive our sixth Best Protection Award from AV-TEST. To keep attackers at bay, F-Secure's endpoint protection solutions are constantly developed with the latest innovations and threat insights. Our many accolades and thousands of satisfied customer companies showcase our commitment to protect businesses around the world.

NUMBER OF YEARS OF AV-TEST 'BEST PROTECTION' AWARDS SINCE ITS INCEPTION (2011).

Throughout the entire year of 2018, 'F-Secure Protection Service for Business' demonstrated the highest level of security performance, which AV-TEST recognized with the 'Best Protection 2018' Award.

Maik Morgenstern,
CTO AV-TEST GmbH

ABOUT F-SECURE

Nobody has better visibility into real-life cyber attacks than F-Secure. We're closing the gap between detection and response, utilizing the unmatched threat intelligence of hundreds of our industry's best technical consultants, millions of devices running our award-winning software, and ceaseless innovations in artificial intelligence. Top banks, airlines, and enterprises trust our commitment to beating the world's most potent threats.

Together with our network of the top channel partners and over 200 service providers, we're on a mission to make sure everyone has the enterprise-grade cyber security we all need. Founded in 1988, F-Secure is listed on the NASDAQ OMX Helsinki Ltd.
